

ILSR-110

Datasheet

Light regulator
Ref. ILSR-110

General features

Closed loop constant light regulator 1/10v for connection to Normalink adapter IDNG-EAD.

Features

- False ceiling embedded mounting.
- Incorporates a movement sensor (PIR) allowing the activation of the lighting when people are present if needed.
- 110-230v AC 50-60 Hz.
- Brightness level: 100-1000 lux.
- Connection time: 10-30 min.
- IP20 according UNE 20324.
- Functioning temperature: 0°C to 40°C
- Movement detection range: 360°/day, 7 meters at 2.5 m height.
- Diameter: 80mm.
- Controller dimensions: 107 x 53 x 34 mm
- Easy installation in false ceilings. Only 48mm height required to install if the hole is 68mm, and 60mm height if the hole is 55mm.
- Manufactured according UNE EN60730 norm.
