

# ILSS-110

## Datasheet

Light regulator  
Ref. ILSS-110

### General features

Closed loop constant light regulator 1/10v for connection to Normalink adapter IDNG-EAD.

### Features

- Surface ceiling mounted. Incorporates a movement sensor (PIR) allowing the activation of the lighting when people are present if needed.
- 110-230v AC 50-60 Hz.
- Brightness level: 100-1000 lux.
- Connection time: 10-30 min.
- IP20 according UNE 20324.
- Functioning temperature: 0°C to 40°C.
- Movement detection range: 360°/day, 7 meters at 2.5m height.
- Diameter: 118.50 mm.
- Height: 45 mm.
- Manufactured according UNE EN60730 norm.

### Sede central / Headquarters

Parque Tecnológico de Asturias. C/ Ablanal, 1
